

Salt Support

For Salt Pools

EVEN SALT NEEDS SUPPORT

START

Add Start once, and you'll wonder how you ever swam without it.

FEATURES & BENEFITS

- Softer feeling water – GUARANTEED!
- Keeps water balanced longer; less acid additions
- Improves clarity and adds sparkle
- Added Salt CL Shield decreases cell activity, saving money
- Inhibits corrosion while reducing scale formation

APPLICATION

- Add Start at beginning of season.
25 pounds for every 10,000 gallons of pool water

Add any of the **Salt Support Weekly** products to improve the quality of your pool water. Add all three for pool water on the brink of perfection.

WEEKLY BALANCE

Balanced water with the power of borates.

FEATURES & BENEFITS

- Replace hazardous muriatic acid or sodium bisulfite as a pH reducer
- Can reduce free chlorine demand by helping maintain pool's water balance
- Reduces pH bounce, staining and corrosion by balancing salt cell effluent

APPLICATION

- To adjust pH, typical application of 12 oz. per 10,000 gallons.

WEEKLY BOOST

Cells work hard – Give them a break!

FEATURES & BENEFITS

- Quickly rids pools of organic contaminants that cells have a difficult time removing on their own
- Contains our Enhanced Micro-flocculation technology
- Swim in 15 minutes after application
- Allows chlorine to work more efficiently

APPLICATION

- Add 1 pound weekly for every 10,000 gallons of pool water
- Resume swimming 15 minutes after application

WEEKLY CLEAN

Your pool brush in a bottle!

FEATURES & BENEFITS

- No-touch surface cleaner, helps in reducing filter maintenance
- Unique clarifying agent removes non-living organic matter and dirt through filtration
- Breaks down oils, cosmetics, lotions, and other outside materials pool users introduce to the water
- **Made from all natural biodegradable enzymes; environmentally safe**

APPLICATION

- Add 4 oz. weekly for every 10,000 gallons of pool water

KICK START

Give your pool a kick of freshness!

FEATURES & BENEFITS

- Makes your water feel new again
- Clarifies water for added sparkle

APPLICATION

- Kick Start residual should range between 30-50 ppm
- Add Kick Start routinely to maintain perfect water conditions or use as part of your closing program
- For accuracy, bring a pool water sample to your Salt Support dealer to test for Kick Start level

CELL CLEANER

Dissolves minerals that naturally build on the salt cell.

FEATURES & BENEFITS

- Easy and safe to use
- Extends the life of salt cell
- Quickly loosens the hardened deposits collected on the cell plates

APPLICATION

- In a plastic pail, add one pound Cell Cleaner to three gallons warm water
- Submerge the salt cell into the solution for 30 minutes, then rinse cell
- Read package for complete details and warning guidelines

METAL MIRACLE

Tough stain removal regardless of metals present.

FEATURES & BENEFITS

- Works to eliminate copper, iron, manganese and more
- Adding regular maintenance dose will prevent stains from coming back
- Existing metals in pool water are partially removed via filtration

APPLICATION

- Turn off salt cell for at least 72 hours
- Add 1 quart for every 10,000 gallons of pool water
- After 72 hours backwash or clean filter and resume salt cell use

STAIN & SCALE

Highly effective prevention of staining, water discoloring, & scaling.

FEATURES & BENEFITS

- Prevents staining and scale formation in salt pools
- Prevents copper, iron, and manganese staining and discoloring
- Phosphate free formulation

APPLICATION

- When trace metals are present or scale prevention is important. Add 3-6 ounces weekly per 10,000 gallons

SUPPORT YOUR INVESTMENT.

Salt Support's unique products are designed to extend the life of your salt cell generator pool's equipment.

SYSTEM START / KICK START

Inhibits corrosion, balances water to protect pool surfaces and plumbing, reduces filter maintenance and reduces generator cell activity.

WEEKLY BALANCE

Balanced water with the power of borates.

WEEKLY BOOST

Oxidizes waste for easier filtration while reducing generator cell use.

WEEKLY CLEAN

Cleans pool surfaces that chlorine can't touch. Improves filtration efficiency.

SALT CELL CLEANER

Removes build-up that naturally occurs on generator cells. Extends cell life while improving chlorine-production efficiency.

METAL MIRACLE / STAIN & SCALE

Removes stains caused by metals using Metal Miracle. Prevents future staining and scaling with Stain & Scale.
